Mr. M. B. Boswell, President
Westinghouse Materials Company
of Ohio
P. O. Box 398704
Cincinnati, Ohio 45239-8704

Dear Mr. Boswell:

APPLICATION FOR APPROVAL TO MODIFY PLANT 5 WEST COLD SAW

Enclosed is a copy of the NESHAP approval letter for the subject source. Operation of this equipment should be in full compliance with 40 CFR Part 61, Subpart H, as well as the Ohio Permit to Operate. Periodic audits should be conducted to verify compliance should you resume operation of this equipment.

If your staff has any questions regarding this matter, please ask them to contact Behram Shroff, of my staff, at extension 6003.

Sincerely,

Gerald W. Westerbeck
FMPC Site Manager

Re: Application for Approval to Modify
Plant 5 West Cold Saw

Dear Mr. Reafsnyder:

Thank you for your February 21, 1990, submittal of an application for approval to modify, under 40 CFR 61.07, the Feed Materials Production Center in Fernald, Ohio by constructing the Plant 5 West Cold Saw (I.D. No. 5-084). In accordance with the provisions of 40 CFR Part 61, the United States Environmental Protection Agency (USEPA) has reviewed the application to determine whether the Plant 5 West Cold Saw will cause emissions in violation of the National Emission Standards for Hazardous Air Pollutants promulgated at 40 CFR Part 61, Subpart H (radionuclides standard).

USEPA has determined that the data contained in the application indicate that the Plant 5 West Cold Saw will not cause emissions in violation of the radionuclides standard if properly operated. USEPA hereby approves this modification in accordance with 40 CFR 61.08.

Please be advised that this approval is granted solely under Section 112 of the Clean Air Act and the General Provisions of 40 CFR Part 61, and does not relieve you of the responsibility for compliance with any other provisions of 40 CFR Part 61, or other applicable Federal, State, or local regulations. In addition, this approval in no way affects approvals under other Federal or State authorities.
